You drink a glass of strawberry juice daily. You never have a headache. What might you infer? What might you predict?

Tuesday, August 21, 2012

We are discussing lab safety in class. What is the purpose of lab safety symbols? Where else might you see safety symbols?

Wednesday, August 22, 2012

In an experiment, why is it important to control all variables except one?

Thursday, August 23, 2012

The "scientific method" isn't really only for science. It's a problem solving process. Give an example of a time when you had to solve a problem.

Friday, August 24, 2012

Suppose you would like to find out which dog food your dog likes best. What variables would you need to control in your experiment?
